

Privacy Policy and Useful Links

Sensitive Data - Restricted Access

The following information is classified as private and is not available for public queries:

- Student grade sheets and report cards
- Individual fee payment history and outstanding balances
- Disciplinary action records
- Teacher personal contact numbers

If a user asks for any of the above private records without being a verified guardian, the correct response is: "I'm sorry, this information is sensitive. Please login to your portal at smp.educators.edu.pk/student_login to access personal records." A verified guardian calling about their own child may still be given that child's own attendance, fees, timetable, and results directly.
